PROJECTS

NaapTol - Farmers Smart Help |[GitHub](#)

Sep 2025 – Dec 2025

- Built a full-stack MERN web platform that allows farmers to digitally manage crop measurements, track market pricing, and maintain structured crop records.
- Integrated features such as real-time weather updates, dealer discovery, and farming tips to support better decision-making and improve access to agricultural information.
- Developed an analytics dashboard and real-time chat functionality that allows farmers to visualize income and crop trends while communicating with admins and the farming community.

Tech: MongoDB, Express.js, React.js, Node.js, Tailwind CSS

NashaMukti - Centralized Nasha-Mukti Database |[GitHub](#)| [Live](#)

Mar 2025 – May 2025

- Developed a centralized web-based system for managing patient records and rehabilitation center operations, including tracking, treatment monitoring, and automated report generation.
- Designed and built the front-end using HTML, CSS, and JavaScript, while implementing backend logic with PHP to ensure smooth functionality.
- Handled MySQL database operations such as patient registration, admission details, treatment tracking, data retrieval, and ensured secure and efficient data flow between the UI and database.

Tech: HTML, CSS, JavaScript, MySQL, PHP

SUMMER TRAINING

MERN – Full Stack Development | [Link](#)

Jun 2025 - Jul 2025

- Developed **end-to-end web development** skills by mastering the **MERN stack** MongoDB, Express.js, React.js, and Node.js through hands-on, project-based training at Cipher School.
- Built multiple full-stack applications implementing **REST APIs**, user authentication, routing, state management, and **responsive UI components**.
- Applied modern frontend development practices using **React**, including component-based architecture, **hooks**, and efficient state handling.
- Enhanced backend expertise by working with Express and Node.js, integrating databases, **handling server-side logic**, and deploying full-stack applications.

Tech: React, NodeJS, MongoDB, Tailwind CSS
